

OvaFree[®] 46

by IsoNova

Cage-Free Egg Product

FREE YOURSELF FROM THE COMPETITION

For pet foods, egg is the quality standard by which all protein ingredients are measured. Not only that, egg is the single most nutritionally complete whole food item, period.

IsoNova's OvaFree[®] 46 whole egg product delivers a balanced amino acid profile, energy, vitamins, and minerals to help you formulate better foods and treats. Whether you use egg as a feature ingredient or simply to enhance marketing claims, you can't afford *not* to use OvaFree[®] 46 in your products.

Benefits:

- Third party verified supply chain
- New source for innovative products
- Industry-leading amino acid profile quality
- High protein-to-ash ratio (10:1 or better)
- Support new marketing claims
- Natural, label-friendly ingredient
- Shelf-stable
- Nutritionally efficient compared to other protein sources

Specification:

PROTEIN	FAT	MOISTURE	ASH
46%	33%	6.5%	6%
minimum	minimum	maximum	maximum
